GARANTA FINANZGRUPPE AG

Project Investment Confirmation and Claim Assignment Agreement

Template for primary market investments | Simplified Basic Terms

Version: 0.4 | Effective date: 2026-07-01 | Draft for legal review

This template is intended to be generated automatically by the Garanta platform for each investment allocation and each separate Holding. Part I contains only the dynamic transaction data. Part II contains the short standard assignment terms applicable to the transaction.

Part I - Basic Terms and Conditions

This Part I is generated dynamically by the platform and identifies the specific investment transaction. It should not repeat the General Terms and Conditions / User Agreement or the full Project Summary.

No.	Field	Dynamic value
1	Agreement No.	PIO-539BFC85
2	Date and time of confirmation	2026-06-23T11:36:34.449582+00:00
3	Project ID / Project name	46c35db9-f137-4502-b886-00339cbf1b88 / New real-estate backed facility
4	Borrower	Alpine Real Estate Borrower AG / 9f20a48f-9077-43a6-b6e0-90e322106bd2
5	Loan Agreement No.	LOAN-46C35DB9
6	Lender ID	3da793b6-7896-4dbc-aa2b-7c80f6987377
7	Holding ID	Assigned at funding close
8	Assignor / original lender / lender of record	Garanta Finanzgruppe AG
9	Investment / Claim Amount	2'000.00 CHF
10	Claim Price	2'000.00 CHF
11	Interest rate	10.00% p.a.
12	Repayment / maturity date	2027-07-16
13	Repayment type	Bullet principal with periodic interest
14	Collateral / security	Real-estate backed facility as described in the project summary.
15	Buyback / repurchase obligation	No
16	Applicable documents	User Agreement, Project Summary, Transaction Documents and this Agreement

Part II - General Assignment Terms and Conditions

These General Assignment Terms apply to the transaction identified in Part I. Capitalized terms have the meanings given in the General Terms and Conditions / User Agreement for Lenders unless defined or specified in this Agreement or in the relevant Project documents.

1. Relationship with the User Agreement and Project documents

This Agreement is concluded under, and forms part of, the General Terms and Conditions / User Agreement for Lenders accepted by the Lender. The Project Summary, the relevant Transaction Documents and the Platform Ledger form part of the transaction record. In case of conflict, the Project-specific Transaction Documents prevail for the relevant Project, followed by this Agreement and then the User Agreement, unless mandatory law requires otherwise.

2. Subject of the assignment

Subject to the terms of the Project documents, the Assignor transfers, assigns or records in favour of the Lender the Claim or Holding identified in Part I for the Claim Price stated in Part I. The Lender does not assume any obligations of the Borrower and may acquire only a partial claim or economic participation in the Project, not the entire claim against the Borrower.

The Lender acknowledges that it may hold rights together with other lenders participating in the same Project and that it may not become the sole creditor of the Borrower. Unless expressly stated otherwise in the Transaction Documents, the Lender does not acquire any direct claim against the Borrower's own clients, debtors or underlying customers.

3. Creation of the Holding and settlement

The Claim or Holding is created, assigned or recorded when the Lender's Available Balance has been reserved or debited and the relevant Project, settlement and allocation conditions have been satisfied in accordance with the Transaction Documents and the Platform Ledger.

Funds are held only for settlement purposes and not as deposits, electronic money or a general-purpose payment account. If the transaction or funding allocation is not completed within the maximum permitted settlement period of 60 days, the relevant funds should be released or returned to the Lender's Verified Bank Account, subject to compliance, AML, sanctions, fraud, legal hold or operational restrictions.

4. Interest, repayment and allocation

The Lender is entitled only to the principal, interest, default interest, ancillary claims or recoveries expressly included in the composition of the Claim or Holding and in the relevant Project documents. Payments received from the Borrower or from enforcement/recovery are allocated according to the Project terms, the Transaction Documents and the Platform Ledger, generally pro rata by Current Principal Balance unless otherwise specified.

Garanta is not required to pay any amount to the Lender before the corresponding amount has been received from the Borrower, collection account, recovery agent, buyer, seller or other paying party. Accrued interest allocation, including in case of a secondary-market transfer, follows the rules in the User Agreement and the relevant Transaction Documents.

5. Collateral and enforcement

Collateral or security exists only if expressly stated in Part I or the Project documents. Any Collateral may be held, registered, administered or enforced by Garanta, the original lender, the lender of record or a designated collateral agent for the economic benefit of the relevant lenders. Unless expressly provided otherwise, Collateral is not re-registered directly in the name of each Lender.

The Lender must not contact the Borrower, guarantor, pledgor, collateral provider or the Borrower's underlying clients directly, request payment directly, initiate unilateral recovery or enforcement action, or interfere with servicing, restructuring, collection or enforcement actions.

6. Risk acknowledgement

By confirming the transaction, the Lender confirms that it has reviewed the Project Summary, the available Project-specific risk information and the relevant Transaction Documents, and that it makes the funding decision independently and at its own risk.

Garanta does not guarantee repayment of principal, interest, default interest, fees, recoveries, secondary-market liquidity or Collateral enforceability. The Lender may lose all or part of the funded amount.

7. Secondary market

If secondary-market functionality is available and the Holding is eligible, the Lender may transfer the entire Holding only through the platform, in accordance with the User Agreement and platform rules. Partial sale or splitting of a single Holding is not permitted unless Garanta changes this rule in the applicable platform terms.

8. Electronic acceptance and evidence

This Agreement is accepted electronically through the platform. The platform should retain the Lender ID, Project ID, Holding ID, confirmation timestamp, IP address where available, document version, document hash, checkbox text, Transaction Documents and a non-editable snapshot or PDF of the accepted Agreement.

9. Governing law and final provisions

This Agreement is governed by Swiss law, subject to mandatory rules that may apply. Subject to mandatory law, the courts at the registered seat of Garanta Finanzgruppe AG have jurisdiction. This Agreement remains binding for the relevant Holding until repayment, transfer, write-off, recovery completion or other final settlement according to the Transaction Documents.
